EDUCATION

BBS: Software Engineering | **Universidad de Puerto Rico – Mayagüez** | **GPA Graduación:** 3.10/4.00
Expected Graduation date: August 2023
Relevant Coursework: Data Structures | Advanced Programming | Introduction to Programming

CLASS PROJECTS

- Car Dealer Backend Services | Data Structures** **10/2019 to 10/2019**
- Built a REST-API of a web application that kept track of information in a car dealer via a Circular Sorted Doubly Linked List, then a HashMap and encoded data with JSON, using Java Jersey. In 3 weeks, ensued the completion of the 3/3 given tasks.
- Magicka 2D | Advanced Programming** **10/2018 to 10/2018**
- Revamped the game's UI and immersion by modifying the existing world and implementing a new one in 2 weeks using Java. Resulted in the completion of 5/5 requirements given.
- Snake | Advanced Programming** **09/2018 to 09/2018**
- Implemented debugging commands and diversified the game's performance. In 2 weeks, accomplished 9/9 requirements given in 2 weeks.

PERSONAL PROJECTS

- Kagurazawa Ishikawa | Website** **04/2019 to 06/2019**
- Designed a website using HTML, CSS, and JS for a Japanese restaurant. As a result, the customer can navigate the general information, menu and make reservations.
- Aroma Candles | Website** **07/2019 to Current**
- Creating a website using HTML, CSS that sells candles.

ACTIVITIES

- Ignite Development Program Selectee** **August 16, 2019**
- Invited to attend a half-day program focused on developing skills in interviewing, networking, and personal branding
 - Networked with senior level executives and associates
 - Obtained skills to help further my recruiting success
- Active Member | ACM-CSE** **2018 to Current**
- Obtained skills on how to tailor my resume and how to approach interview questions.
- Active Member | IEEE- CS** **2017 to Current**
- Developing the IEEE UPRM chapter webpage using HTML, CSS and JS.
- Volunteer | Colegio Evangélico Capitán Correa** **2015 to 2016**
- Cleaned, fed, entertained and walked the animals.
 - Helped in tedious procedures like warming and cleaning a newborn goat.
 - Cleaned 1/3 of a strip of the beach coast in Hatillo, resulting in a cleaner beach and helping to reduce our environmental footprint.

SKILLS

- Languages:** Fluent (English and Spanish), Intermediate (German)
- Programming Languages:** Java (2 years), Python (1 year), HTML (6 months), CSS (6 months)
- Microsoft Apps:** Word, PowerPoint, Excel
- IDEs:** PyCharm, IntelliJ, Eclipse, Sublime 3
